Family Caregiver Support Program

When family members care for older consumers, they are often overwhelmed by the demands on their time, energy and finances. The Family Caregiver Support Program (FCSP) offers services to meet the needs of both the older person and the caregiver. The program is designed to *supplement* the care being provided by the family, *not to replace it*.

Services and benefits provided through the FCSP are available to Butler County residents age 60 and older, or ages 18-59 who suffer from chronic dementia such as Alzheimer's disease. Individuals must have a primary caregiver that has assumed responsibility for the care and supervision of the consumer.

Consumers must require supervision and/or need assistance with one or more activities of daily living due to physical or cognitive limitations. Activities of daily living may include bathing, feeding, dressing, grooming, transfers and toileting.

The FCSP allows the family to choose the services they need most to care for their loved one. If eligible, families may be provided with financial reimbursement of the cost of respite care services, medical and incontinence supplies not covered by insurance, home modifications and assistive devices. A care manager will provide support, care management, benefits counseling and assistance in applying for local, state and federal programs.

For more information on the Family Caregiver Support Program
call (724) 282-3008, or toll free (888) 367-2434,
Monday through Friday between the hours of 8:30 a.m. – 4:30 p.m.
